Special Interest Model Books. Paperback. Book Condition: new. BRAND NEW, Vertical Milling in the Home Workshop, Arnold Throp, The increasing appearance of vertical milling machines in model engineers' and other small workshops has brought the versatility of this type of machine to the notice of a large and growing group of potential users, but until the first edition of this book was published in 1977 there was little available guidance for the average amateur or small user. This third revised edition includes descriptions of many of the very wide range of operations possible with photographed examples, plus information on machines, accessories, cutters, chucks, requirements and methods of work-holding.
