FAST FORWARD ETHICS AND POLITICS IN THE AGE OF GLOBAL WARMING BROOKINGS FOCUS BOOK

Brookings Institution Press. Paperback. Book Condition: New. Paperback. 144 pages. Dimensions: 8.5in. x 5.5in. x 0.1in. Fast Forward is equal parts science primer, history lesson, policy prescription, and ethical treatise. This pithy and compelling book makes clear what we know and don't know about global warming; why the threat demands prudent and urgent action; why the transition to a low-carbon economy will be the most difficult political and economic transaction in history; and how it requires nothing less than a revolution in our sense of civic responsibility. William Antholis and Strobe Talbott guide the reader through two decades of climate change politics and diplomacy, explaining the national and international factors that have influenced and often impeded domestic climate legislation and global negotiations. Recent United Nations-sponsored summits have demonstrated that the world cannot wait for a binding global treaty. Instead, the authors believe that the Big Four of America, the European Union, China, and India must lead the way forward. They recommend a new international mechanism modeled on the General Agreement on Tariffs and Trade that would monitor national commitments and create incentives for other countries to coordinate their efforts to cut emissions. Antholis and Talbott put their recommendations for legislative and diplomatic action into the larger context of our obligation to future generations, echoing a theme stressed by a diverse coalition of religious leaders calling for ambitious action on climate change. The world we leave to our children and grandchildren is not an abstraction, or even just a legacy; we must think about what kind of world that will be in deciding how we live and act today. Praise for Fast Forward William Antholis and Strobe Talbott brilliantly explode the economic and scientific myths about climate change while elevating the political debate to a transgenerational moral crisis. Their synthesis of science, economics,...
