Createspace, United States, 2011. Paperback. Book Condition: New. Updated. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This book is a mashup of breakthrough renewable energy technologies, networked socioeconomic trends emerging from the sharing economy and timeless spiritual philosophies to examine how we got here and where we may be headed. All articulated with real world stories from the perspective of someone who has spent a career lifetime studying network behavior and motivating positive actions through information design. Beyond addressing only the technical and political issues, the book also gets to the root behaviors that now drive our energy scarcity based economic activities. From induction charging to nano technology based wireless electricity solutions can transform the renewable energy landscape if only we could design a business model that rewards users for sharing rather than charging them for consuming. 3. Accelerate innovation so no one has to depend on a job they don t like to make a living. Distributed and collaborative co-creation environments are transforming everything from crowdsourcing innovation to raising...
